

PATENT COOPERATION TREATY  
PCT  
INTERNATIONAL SEARCH REPORT  
(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference <b>12350</b>	FOR FURTHER ACTION	see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.
International application No. <b>PCT/NZ2003/000275</b>	International filing date (day/month/year) <b>15 December 2003</b>	(Earliest) Priority Date (day/month/year) <b>16 December 2002</b>
Applicant <b>HENLEY INDUSTRIES LIMITED et al</b>		

This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 5 sheets.

It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report
  - a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  
 the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).
  - b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  
 contained in the international application in written form.  
 filed together with the international application in computer readable form.  
 furnished subsequently to this Authority in written form.  
 furnished subsequently to this Authority in computer readable form.  
 the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  
 the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished
2.  Certain claims were found unsearchable (See Box I).
3.  Unity of invention is lacking (See Box II).
4. With regard to the title,  the text is approved as submitted by the applicant.  
 the text has been established by this Authority to read as follows:
5. With regard to the abstract,  the text is approved as submitted by the applicant  
 the text has been established, according to Rule 18.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.
6. The figure of the drawings to be published with the abstract is Figure No. 10  
 as suggested by the applicant.  
 because the applicant failed to suggest a figure  
 because this figure better characterizes the invention

None of the figures

<b>A. CLASSIFICATION OF SUBJECT MATTER</b>																						
Int. Cl. <sup>7</sup> : B65G 17/46, 17/08, 17/26																						
According to International Patent Classification (IPC) or to both national classification and IPC																						
<b>B. FIELDS SEARCHED</b>																						
Minimum documentation searched (classification system followed by classification symbols)																						
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched																						
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI IPC B65G 17/ic, 37/ic and KEYWORDS conveyer, belt, pin, push, project, protrude, spike, hinge, pivot, rotate, rib, boss, bar, shoulder																						
<b>C. DOCUMENTS CONSIDERED TO BE RELEVANT</b>
